JOHANNES KRUSE

Address: 1031 Loring St, San Diego, CA 92109, USA | Göteborg Plads 15, 2150 Copenhagen, Denmark
Contacts: +1 (858) 241-1684 | +45 93 95 95 56 | Johannes-Kruse@hotmail.com | johanneskruse.github.io
DOB: $\sqrt{9}/\sqrt{25}/\sqrt{9025}$

Summary: I specialize in machine learning, natural language processing, and recommender systems. My academic pursuits, coupled with my active participation in volunteer projects and professional roles, have cultivated my skills in strategic planning, proactive problem-solving, and efficiently structuring complex tasks. I am a disciplined learner who thrives on being challenged and seeks opportunities to continuously expand my competencies.

PUBLICATIONS

STUDENTS

- o Zhijian Feng, 2023, Technical University of Denmark & Ekstra Bladet
  MSc thesis: *Using Image Information in Deep Learning-Based Recommender Systems for News*
- o Magnus Waldemar Hoff Harder & Nikolaj Bach Meineche, 2023, Technical University of Denmark & Ekstra Bladet
  BSc thesis: *Transformer-based News Recommendations: Leveraging User Click-History with Deep Learning*

EDUCATION

12/2021 – Present	Technical University of Denmark & JP/Politikens Hus	Industrial Ph.D. Student	Kgs. Lyngby & Copenhagen, DK

- o Project title: Responsible Recommender Systems for Danish News Publishing (RRS-DK)
- o Courses: Deep Learning, Reinforcement Learning, Machine Learning Summer School, Advanced Topics in Machine Learning, Entrepreneurship in Technical Science
- o Developed and implemented the core recommendation system for EkstraBladet.dk, improving user engagement and driving significant traffic growth for the site

03/2024 – 11/2024	University of California San Diego	Visiting Scholar	San Diego, California, USA

- o Visiting scholar at Prof. McAuley's research lab, focusing on the development of innovative recommender system architectures and advancing the explainability of such systems

09/2018 – 04/2021	Technical University of Denmark	MSc Applied Mathematics	Kgs. Lyngby, DK

- o Thesis: Deep learning for Natural Language Processing. Exploring the use of Knowledge Graph technologies with the objective of enriching word embeddings. Grade: 12 (A+)
- o Courses: Machine Learning, Advanced Modeling, Time Series Analysis, Computational Data Analysis, Constrained Optimization, Computational Data Analysis
- o Involved in the Danish research project WriteReader by evaluating machine-generated captions with Deep Learning using Deep Residual Networks and Convolutional Neural Networks

09/2019 – 01/2020   Barcelona School of Informatics | Exchange Student   Barcelona, ES
- o   Courses: Deep Learning, Kernel-based Machine Learning and Multivariate Modelling, and Human Language Engineering

09/2015 – 06/2018   Technical University of Denmark | BSc Biomedical Engineering   Kgs. Lyngby, DK
- o   Thesis: Computational Neuroimaging. Investigation of transcranial magnetic stimulation variability in defined brain states by applying data analysis using Python programming. Grade: 12 (A+)
- o   Courses: Advanced Engineering Mathematics, Physics, General Chemistry, Human Biology, Medical Imaging

08/2017 – 12/2017   Rensselaer Polytechnic Institute | Exchange Student   New York, US
- o   Courses: Biomechanics, Biomedical Product Development, Skilled Performance & Training

WORK EXPERIENCE

04/2021 – 12/2021   Ekstra Bladet | Machine Learning Engineer   Copenhagen, DK
- o   Facilitated multiple workshops with project stakeholders to ensure an understanding of the complex mathematical algorithm being implemented in production and to agree on the project's goals and progress
- o   Responsible for model selection, framework development for model training and evaluation, and employing state-of-the-art recommendation systems for production use at ekstrabladet.dk

07/2020 – 09/2020   Infosys Limited | InStep Intern   Bangalore, IND
- o   Developed a framework for a conversational search component for an existing enterprise search engine
- o   Built an artificial intelligence-driven application for question answering and question generation modules, utilizing state-of-the-art machine learning algorithms at that time

01/2020 – 09/2020   Implement Consultant Group | Junior Consultant   Copenhagen, DK
- o   Part of the Data & Analytics team that supports companies in becoming more data-driven by optimizing their value chain
- o   Code contributor to multiple text mining projects utilizing machine learning algorithms to extract and visualize topics within survey data and reduce the number of organizational documents

09/2018 – 09/2019   AudienceProject | Data Analyst   Copenhagen, DK
- o   Programmed software in Python for structural sentence recognition, enabling document categorization
- o   Worked independently with clients and as part of a team that collaborates with two of the major departments

03/2018 – 09/2018   The Danish Ethics Committee | External Consultant   Copenhagen, DK
- o   Developed a working paper titled "Privacy-by-Design," which examines the possibilities of enabling citizens to secure complete control of their personal data stored in public spaces via technical means
- o   Facilitated constructive discussions with leading scientists in the field of cryptography and academically communicated relevant information in a comprehensive format for the members of the Ethics Committee

08/2016 – 06/2018   Technical University of Denmark | Teaching Assistant   Kgs. Lyngby, DK
- o   Clarified learning objectives and promoted discussions of the syllabus. Courses: Calculus and Algebra 1 and 2
- o   Assisted professors in evaluating and grading mathematical assignments

02/2016 – 05/2018   Novozymes | Student Assistant   Bagsvaerd, DK
- o   Calibrated and maintained laboratory equipment
- o   Optimized and enhanced the work process of the full-size washing machine program in the Household Care division by implementing and streamlining the calibration routine from four to six washing machines

08/2017 – 12/2017   Rensselaer Polytechnic Institute | Research Assistant   New York, US
- o   Performed population studies for the Cognitive Science Department, following rigorous scientific protocols and instructing subjects on the processes of the experiment

VOLUNTEER

06/2018 – 08/2018   Engineering World Health | Expatriate Volunteer   Dolakha District, NP
- o   Stationed as an engineer in a remote hospital in the Himalayas, Nepal, for a duration of six weeks
- o   Cooperated with the Ministry of Health of Nepal and the local hospital to contribute to the UN's 2030 development goals of ensuring universal health benefits to all people around the world

OTHER

IT Skills	Python, SQL, Git, R, Microsoft Office
Languages	Danish (Native) – English (Fluent) – Spanish (Intermediate)
Interests	Culture (Lived abroad in Greenland, Australia, United States), Climbing (certified rock-climbing instructor), Freediving (Completed an open-sea dive to 28 meters), Hiking (Almost hugged a wild bear)
